

*EBOOK: Usage of the Chipcards*

---

*Dear Readers,*

following informations were created based on the experience of

**Dr. Jutta Mauermann**  
**Brunnenstr. 43a**  
**D-86938 Schondorf (Firma Alternativ Gesund)**

and

**A.E. Baklayan**  
**Heilpraktiker**  
**Traditionelle Naturheilverfahren**  
**Unterer Anger 16**  
**80331 München**

And should make the usage of Chipcards with the Biowave much easier.

**Pay attention:** The products are based on medical knowledge, which are not accepted by the so-called conventional medicine. The statements made herein to indications and efficacy of the device and its applications are therefore not generally scientifically accepted.

Respect also, that the BioWave Generator is not a substitute for a thorough treatment and a therapeutic plan for serious illnesses and life-threatening conditions.

**Contraindications:**

Pregnant women. People with cardiac pacemakers or other electronic medical devices in the body, and patients with an insulin pump.

## Usage advices:

In general: Use only one Frequency Chip daily.

You can perform on the same day (possible before the sunset) the Clarksche 3x7-Minutes-Program, if you tolerate it well.

If you use more Frequency-Chips: on the 1st day the first one, one the 2nd day the second one (and so on).

Very sick or old people should make one day break.

The same applies to violent detoxifications reactions (like headache, limb pain, nausea, insomnia, etc...)

Depending on how many toxins decay through the zapping, you can facilitate the detoxification through taking enzymes (max 20 capsules daily). You can get the enzymes (*Pancreatin & Lipase*) at egig.de.

If the enzymes do not intercept the detoxification reactions enough, you can facilitate them with the following additional aids:

### 1) Supporting of the liver

- Mix of the liver herbs (available at egig.de)
- Amino acid *Alfalipon* (also *Thioctic* or *Thioctacid*) 1 capsule per day
- Amino acid *Ornithin* 2-3 capsules before sleeping (both amino acids available at egig.de)
- Hepeel-tablets, suck 3x1 daily
- damp-warm liver compress 20 Minutes after eating

### 2) Supporting of the kidney

- Mix of the kidney herbs (available at biocenter24.com)
- Solidagoren 3x5 drops daily
- the australian flower *Lotus* 1x afternoon with 1 tablet of zinc
- drink a lot of hot liquid ex. hot water with Honey & lemon or with ginger

### 3) Homeopathic globules *Sulfur D6* from the pharmacy: 3x5 globules

I would like to ask you to send a report about the frequency chip. I know, it takes time; but when you take 15 minutes time for that, you can give benefits and help other users. Just write, if you suffered something, what did you do against that and which development was as a result of that. Then send the text per e-mail at [info@biocenter24.com](mailto:info@biocenter24.com).

Stay healthful.

**Frequency-Chip ACNE (ACN)**  
**(according to Dr. Hulda R. Clark and Raymond Rife)**  
**Version 001**

FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).  
The device shows now automatically the content of Chip-Card.  
Every Chip-Card works with any BioWave-Generator.  
Please be careful: Do not touch the gold side of the Chip.

If you want to use only one part of the program  
for ex. Hulda Clarks Frequency against *Staphylococcus aureus*,  
you can just skip the preceding frequencies  
(Arrow PROGRAM down).

*Producer's note: The device can also generate other frequencies,  
which do not correspond to the intended use.  
If the frequencies are used, the user takes the responsibility for it.*

**Supporting Measures for Acne:**

Use the in BioWave built-in Frequency-Program  
**SN** (runny nose) and the **Rife-Chip**, which is to BioWave gratis enclosed.  
These programs contain frequencies, which could be helpful in case of acne.

Avoid, if possible, milk products and food with high sugar content.

Colloidal Silver is helpful, in a concentration of 30ppm  
sprayed onto the skin, and possibly taken orally in addition.

You can also use Acne-Water from *Wala firm*.  
(available at a pharmacy).

Testimonials from therapists and private users shows, that **DETOX-  
Detoxifying Foot Baths** can be helpful against acne, because they place the  
cellular metabolism back into balance. There are such  
DETOX-Systems both for therapeutic practices and for use at home.

The Program contains  
following frequencies:

Frequency	Time (Minutes)
10 Rife-Frequencies against Acne	30:00
Staphylococcus aureus 377 - 381 kHz (Clark)	05:00
Propionibacterium acnes 384 - 389 kHz (Clark)	06:00
Trichinella 404 – 405,5 kHz (Clark)	04:00
<b>Total</b>	<b>45:00</b>

**Frequency-Chip ALLERGIES (ALG)**  
**(according to Dr. Hulda R. Clark and Raymond Rife)**  
**Version 001**

FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).  
 The device shows now automatically the content of Chip-Card.  
 Every Chip-Card works with any BioWave-Generator.  
 Please be careful: Do not touch the gold side of the Chip.

If you want to use only one part of the program  
 for ex. *Sallomonella*,  
 you can just skip the preceding frequencies  
 (Arrow PROGRAM down).

*Producer's note: The device can also generate other frequencies,  
 which do not correspond to the intended use.  
 If the frequencies are used, the user takes the responsibility for it.*

**Supporting Measures for Allergies:**

Use the in BioWave built-in Frequency-Program  
**SN** (runny nose) and **SZ** (pain) and the **Rife-Chip**, if it to BioWave enclosed is.  
 These programs contain frequencies, which could be helpful in case of allergies.  
 There may be a fungal infection. In this case, I recommend the additional frequency-chip **FUNGUS (PI)** .

According to Alan Baklayan food allergies are primary, contact dermatitis and pollen allergies, however secondary.  
 If you treat primary allergies (do a food allergies test for cow's milk products, wheat, chicken protein), the  
 secondary allergies can vanish or be treated easier.

Do one of Alkalinizing Treatment with **base tablets** and pay attention to **basic nutrition**. (more about it at  
 "Instructions of zapping"). Give up eating pork and do the liver cleaning (according to dr Hulda Clark).

Because allergy-causing parasites are transmitted by pets on human, is it obvious to do the parasites cleaning on  
 pets (Zapping and Parasite herbs).

**Hay fever:**

- with strong, acute complaints allopathic Therapy: VIVIDRIN and XUSAL (Pharmacy)
- as a gentler alternatives for longer-term treatment: homeopathic HISTAMINE in the potency of C200 (5  
 beads, once during the week) and acupuncture against the allergy.  
 Against the itching oft he eyes: CONJUNCTISAN B

In allergic inflamed eyes (Conjunctiva - Conjunktivitis) the Conjunctivis-frequency of the chip **EYES (AUG)** can be  
 helpful.

Eventually a intestine cleaning can be helpful, ex. Colon-Hydro-Therapy. Against Ascaris helps Tagetes Tea.  
 Testimonials from therapists and private users shows, that **DETOX-Detoxifying Foot Baths** can be helpful  
 against all forms of allergies, because they place the cellular metabolism back into balance. There are such  
 DETOX-Systems both for therapeutic practices and for use at home.

The Program contains following  
 frequencies:

Frequency	Time (Minutes)
1 Rife-Frequency against Fasciola hepatica	02:00
4 Rife-Frequencies against Strongyloiden	08:00
2 Rife-Frequencies against allergies in general	04:00
4 Rife-Frequencies against food allergies	08:00
Salmonella 329 kHz, 365 – 370 kHz, 382,5 – 386,5 kHz (Clark)	12:00
Strongyloiden 398,5 – 402 kHz (Clark)	05:00
Ascaris 404 – 409 kHz (Clark)	06:00
Pseudomonas, Clonorchis sinensis, Eurytrema pancreaticum 421 - 430 kHz (Clark)	10:00
<b>Total</b>	<b>55:00</b>

## Frequency-Chip

# ARTHRITIS-RHEUMATISM-FIBROMYALGIA (ARF)

(according to Raymond Rife and Dr. Hulda R. Clark)  
Version 003

### FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).  
The device shows now automatically the content of Chip-Card.  
Every Chip-Card works with any BioWave-Generator.  
Please be careful: Do not touch the gold side of the Chip.

If you want to use only one part of the program  
for ex. *Proteus mirabilis*,  
you can just skip the preceding frequencies  
(Arrow PROGRAM down).

*Producer's note: The device can also generate other frequencies,  
which do not correspond to the intended use.  
If the frequencies are used, the user takes the responsibility for it.*

### Supporting Measures for arthritis, rheumatism and fibromyalgia:

I recommend two additional standard-chips, which contain frequency against  
the pathogen, which can also play a role in arthritis, rheumatism and  
fibromyalgia: **Teeth1 (ZÄ1)** and **Bones/Joints (KNO)**.  
You can use as well the **DETOX-Chip (DTX)**.

Use the in BioWave21-Icd built-in Frequency-Programs  
**SN** (runny nose), **SZ** (pain) and the Gratis-Chip **RIFE**.

Read for rheumatism/arthritis in dr Clarks book "Heilung ist möglich" (healing  
is possible) page. 103ff and for fibromyalgia page. 101 („Fibromyositis" in the  
book).

Testimonials from therapists and private users shows, that **DETOX-  
Detoxifying Foot Baths** can be helpful against arthritis, rheumatism and  
fibromyalgia, because they place the cellular metabolism back into balance.  
There are such DETOX-Systems both for therapeutic practices and for use at  
home.

I also recommend the removal and detoxification of mercury, phenols, and  
toluene/xylene. The heavy metal detoxification with the LG treatment (lysine  
and glutamine) according to Dr. Clark takes less time than the classic  
detoxification according to Klinghardt. Also taking **colloidal gold** can be  
helpful.

For osteoarthritis patients: as herbal painkillers-alternative is recommended  
Litozin, a powder of the "Wildhagebutte" (Wild Rose Hip) (at Pharmacy).  
The Tagetes Tea has proven against the ascaris.

The Program contains  
following frequencies:

Frequency	Time (Minutes)
4 Rife-F. against rheumatism and arthritis	08:00
6 Rife-F. against Yersinia & Strongyloides	06:00
1 Rife-F. against Ureaplasma	02:00
4 Rife-F. against Chlamydia	04:00
2 Rife-F. against Trichinella spiralis	04:00
Proteus mirabilis I 321 – 326 kHz (Clark)	03:00
Proteus mirabilis II Mycoplasma pneumoniae 343 – 352 kHz (Clark)	05:00
Chlamydia trachomatis, Ancylostoma (hookworm) Trichuris, Strongyloiden, Trichinella spiralis, Ascaris 380 - 409 kHz (Clark)	15:00
Echinostoma revolutum 425,5 – 429,5 kHz (Clark)	05:00
<b>Total</b>	<b>52:00</b>

**Frequency-Chip EYES (AUG)**  
**(according to Raymond Rife and Dr. Hulda R. Clark)**  
**Version 001**

The Program contains following frequencies:

**FOR USE WITH BioWave-Generators:**

Switch the device on, put the Chip-Card in (Follow the direction arrow!).  
 The device shows now automatically the content of Chip-Card.  
 Every Chip-Card works with any BioWave-Generator.  
 Please be careful: Do not touch the gold side of the Chip.

If you want to use only one part of the program  
 for ex. *Glaucom*,  
 you can just skip the preceding frequencies  
 (Arrow PROGRAM down).

*Producer's note: The device can also generate other frequencies,  
 which do not correspond to the intended use.  
 If the frequencies are used, the user takes the responsibility for it.*

**Supporting Measures for eye-disorders:**

Use the in BioWave built-in Frequency-Program  
**SN** (runny nose) and **SZ** (pain). These programs contain frequencies, which  
 can be helpful in case of eye-disorders.

I recommend using, absolutely additional, the chip **Teeth1 (ZÄ1)**, which  
 contains frequencies against streptococci, staphylococci, adenovirus,  
 chlamydia and candida.

Because large leeches and giardia lamblia can be involved in the eye-  
 problems, it is recommended to use the additional application of the chip  
**The 4 large leeches (EG)** and the parasite-herbs, according to Clark.

Against the aspergilli, there is now a separate new chip  
**Aspergillus (ASP)**.

Hulda Clark suggests strongly, that all family members and pets should join  
 the therapy, to avoid the re-infection. For animals use only 3x the 7-minutes-  
 programe.

For infections in the eye (ex. conjunctivitis), you can apply colloidal silver,  
 directly in the eye and taken orally.

Frequency in kHz	Time (Min)
1 Rife-Fq against Aspergillus niger	03:00
2 Rife-Fq against Cataract (grey star)	06:00
9 Rife-Fq against conjunctivitis	18:00
2 Rife-Fq against Glaucom (green star)	06:00
Neisseria gonorrhoeae 334 - 336 kHz (Clark)	03:00
Haemophilus influenzae 336,41 kHz (Clark)	03:00
Schistosoma mansoni 353 kHz (Clark)	03:00
Ancylostoma (hookworm) 393, 400 kHz (Clark)	04:00
Toxoplasma 395 kHz (Clark)	03:00
Trichinella spiralis, Ascaris 404 – 409 kHz	06:00
<b>Total</b>	<b>55:00</b>

## Frequency-Chip **BACTERIES (BAK)**

(according to Rife)

**Version 002**

### FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).

The device shows now automatically the content of Chip-Card.

Every Chip-Card works with any BioWave-Generator.

Please be careful: Do not touch the gold side of the Chip.

If you want to use only one part of the program  
for ex. *Sallomonella*,  
you can just skip the preceding frequencies  
(Arrow PROGRAM down).

*Producer's note: The device can also generate other frequencies,  
which do not correspond to the intended use.*

*If the frequencies are used, the user takes the responsibility for it.*

Das Programm beinhaltet  
folgende Frequenzen:

Frequency	Time (Minutes)
21 Rife-F. against streptococci	13:00
8 Rife-F. against Staphylococci	05:30
8 Rife-F. against salmonella	08:00
5 Rife-F. against chlamydia	05:00
4 Rife-F. against pneumococcal	04:00
3 Rife-F. against Haemophilus influenzae	03:00
5 Rife-F. against Bordetella pertussis	05:00
2 Rife-F. against Klebsiella	02:00
2 Rife-F. against Pseudomonas aer.	02:00
2 Rife-F. against Neisseria gonorrhoea	02:00
4 Rife-F. against Escherichia coli, Nocardia, Corynebacterium dipht., Gardnerella	04:00
<b>Total</b>	<b>53:30</b>

We recommend additional the frequency-chip **TOOTH1 (ZÄ1)** and lung-bronchi, which contains the important Bakteria-frequency of Hulda Clark.

**Frequency-Chip**  
**URINARY-BLADDER-PROSTATE (BP)**  
 (according to Raymond Rife and Dr. Hulda R. Clark)  
 Version 003

FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).  
 The device shows now automatically the content of Chip-Card.  
 Every Chip-Card works with any BioWave-Generator.  
 Please be careful: Do not touch the gold side of the Chip.

If you want to use only one part of the program  
 for ex. *Helicobacter*,  
 you can just skip the preceding frequencies  
 (Arrow PROGRAM down).

*Producer's note: The device can also generate other frequencies,  
 which do not correspond to the intended use.  
 If the frequencies are used, the user takes the responsibility for it.*

The Program contains  
 following frequencies:

Frequency	Time (Minutes)
5 Rife-F. instag Taenia, Yersinia, Listeria	05:00
3 Rife-F. against Gonorrhoe and Ureaplasma	03:00
17 Rife-F. against Prostatitis	17:00
10 Rife-F. against Streptococcus faecalis	05:00
Neisseria Gonorrhoeae 334 – 336,5 kHz (Clark)	06:00
Helicobacter I, Nocardia I 352 - 357 kHz (Clark)	06:00
Helicobacter II, Nocardia II 363,5 – 370,5 kHz (Clark)	08:00
Escherichia coli 392 – 393 kHz (Clark)	03:00
Taenia pisiformis I 465 - 470 kHz (Clark)	03:00
Taenia pisiformis II 475 - 482 kHz (Clark)	04:00
<b>Total</b>	<b>60:00</b>

**Supporting Measures for Bladder and Prostate:**

I recommend two additional frequency-chips, which contain frequency against the pathogen, which can also play a role in the area of Bladder and/or prostate:

- **LUNG-BRONCHI**  
 Mycoplasma pneum., Pseudomonas, Chlamydia, Hookworms, Pneumococcus, Haemophilus infl. Klebsiellen und Pneumococcal
- **ENDOMETRIOSIS (also for men relevant)**  
 Gardnerella, Proteus vulgaris, Salmonella, Chlamydia trach., Trichomonas vag. Schistosomes, Pinworms (Enterobiasis)

In some cases, the frequencies against herpes can also be helpful (see Frequency-Chip **HERPES**).

Use the in BioWave21-Icd built-in Frequency-Program **SN** (runny nose) and **SZ** (pain). These programs contain frequencies, which could be helpful in case of bladder or prostate.

Additional, I recommend the colloidal silver, taken orally.

**Frequency-Chip LYME-DISEASE 2 (BO2)**  
**(according to Dr. Hulda R. Clark and Raymond Rife)**  
**Version 001**

FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).  
The device shows now automatically the content of Chip-Card.  
Every Chip-Card works with any BioWave-Generator.  
Please be careful: Do not touch the gold side of the Chip.

If you want to use only one part of the program,  
you can just skip the preceding frequencies  
(Arrow PROGRAM down).

*Producer's note: The device can also generate other frequencies,  
which do not correspond to the intended use.  
If the frequencies are used, the user takes the responsibility for it.*

The Program contains following frequencies:

<b>Frequency</b>	<b>Time (Minutes)</b>
35 Rife-Frequenzen against lyme-disease	55:30
5 more Frequencies against lyme-disease	10:00
<b>Total</b>	<b>65:30</b>

**Supporting Measures for Lyme-disease (borreliosis):**

Use additionally our frequency-chips **BO (Borreliosis-1)** and the chip **BL1 (Blood/Blut)**, which contains the frequencies of Alan Baklyan, to "lure" to the spirochetes from the cells. Otherwise do not use any other frequency-chips in the same period.

Take colloidal silver.

Take vitamin C high dose: in the acute phase 2-3g daily.  
(more about the vitamin C in our "Instruction of zapping").

The **BioClie n lyme-herbs** support on plant-therapeutic level,  
the fight against lyme-disease.

Supporting can eventually be used the homeopathic *Geranium robertianum* („stinking cranesbill") (Tincture, co. ALCEA).  
It activates the lymphatic circulation and promotes detoxification;  
particularly successful in the "heavy legs" of the post-Lyme disease.  
Dosage: for ex. 3x3 or 2x5 drops daily. No more, because by the  
exceptionally careful cultivation and processing, the strong impacts are  
achieved.

The Internet-Site [www.lymenet.de](http://www.lymenet.de) contains more informations.

**Frequency-Chip DEPRESSION (DP)**  
**(according to Dr. Hulda R. Clark and Raymond Rife)**  
**Version 001**

FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).  
 The device shows now automatically the content of Chip-Card.  
 Every Chip-Card works with any BioWave-Generator.  
 Please be careful: Do not touch the gold side of the Chip.

If you want to use only one part of the program,  
 you can just skip the preceding frequencies  
 (Arrow PROGRAM down).

*Producer's note: The device can also generate other frequencies,  
 which do not correspond to the intended use.  
 If the frequencies are used, the user takes the responsibility for it.*

The Program contains  
 following frequencies:

Frequency	Time (Minutes)
6 Rife-Frequencies against Psoriasis	12:00
5 Rife-Frequencies against Strongyloides	05:00
2 Rife-Frequencies against Trichinella spiralis	02:00
Proteus mirabilis 1 321 - 326 kHz (Clark)	03:00
Proteus mirabilis 2 346 - 352 kHz (Clark)	03:30
Ancylostoma, Shigella flexneri, Trichuris, Strongyloides, Trichinella spiralis, Ascaris 380 - 409 kHz (Clark)	29:00
<b>Total</b>	<b>54:30</b>

**Supporting Measures for Depression:**

There are a lot of forms of the depression,  
 among other: exogenous (caused by external reasons)  
 and endogenous (arising from within).  
 The frequencies in the chip can be only one aid to get  
 a grip on depression and to break the cycle of it.  
 This lies in the fact that we through the depression quite  
 emotional and unmotivated are and for example no more rouse  
 for doing sport can, what would help someone against the depression.

In any case I recommend psychotherapeutic support, and the use  
 of a st. Jone's-herbal-preparation (available at pharmacy). These make light  
 sensitive, so avoid in this case, extreme solar radiation. Taking of colloidal  
 gold can be also helpful against the depression.

According to dr Clark we also need to avoid the chlorine, which is added to  
 the tap water. Recommended is an activated carbon filter system that lets you  
 clean drinking water from chlorine (see the book "Heilung ist möglich"  
 (Healing is possible) p. 300ff).  
 After contact with faeces or toilet you should clean their hands with 50% ethyl  
 alcohol (especially under nails).

Dredge from Shigella with turmeric and fennel capsules, take them 2-3 times  
 2 pieces during eating. And avoid re-infection with Shigella, by providing milk  
 products to the Zappicator.

Tagetes-Tea help against ascaris. Perform liver cleaning (according to dr  
 Hulda Clark or alternatively to Ayurveda).

## Frequency-Chip Epstein-Barr virus (EBV) (according to Dr. Hulda R. Clark and Raymond Rife) Version 003

### FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).

The device shows now automatically the content of Chip-Card.

Every Chip-Card works with any BioWave-Generator.

Please be careful: Do not touch the gold side of the Chip.

If you want to use only one part of the program,  
you can just skip the preceding frequencies  
(Arrow PROGRAM down).

*Producer's note: The device can also generate other frequencies,  
which do not correspond to the intended use.  
If the frequencies are used, the user takes the responsibility for it.*

### **Notes about Epstein-Barr virus:**

The Epstein –Barr virus (EBV) comes from Asia and was brought to Europe 30 years ago. According to various estimates are now around 90% of the population of Central Europe by the EBV infected

The EBV damages the immune system and causes therefore many different diseases. When somebody suffers on an acute EBV infection, this acute infection can be faked with other pathogens by antibody-forming.

Because our immune system is anyway weakened by a variety of influences (by antibiotics, amalgam or other metal pollution, stress, environmental toxins, disturbance focus, etc. ..), EBV should be fought and the immune system should be strengthened. We recommend the frequency-chip **IMMUNE** and more supporting measures.

Because the Epstein-Barr virus may be coupled to the Pankreasegel Eurytrema pancreaticum, according to dr Clark, I recommend also the frequency-chip **The 4 large leeches (EG)**, in which the Pankreasegels frequency is involved.

The Program contains  
following frequencies:

Frequency	Time (Minutes)
Rife: 428 Hz	03:00
Rife: 465 Hz	03:00
Rife: 660 Hz	03:00
Rife: 663 Hz	03:00
Rife: 669 Hz	03:00
Rife: 776 Hz	03:00
Rife: 778 Hz	03:00
EBV (Clark) 372,5 – 382,5 kHz	21:00
<b>Total</b>	<b>42:00</b>

**Frequency-Chip ENDOMETRIOSIS (EN)**  
**(according to Raymond Rife and Dr. Hulda R. Clark)**  
**Version 002**

The Program contains  
following frequencies:

FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).  
The device shows now automatically the content of Chip-Card.  
Every Chip-Card works with any BioWave-Generator.  
Please be careful: Do not touch the gold side of the Chip.

If you want to use only one part of the program,  
you can just skip the preceding frequencies  
(Arrow PROGRAM down).

*Producer's note: The device can also generate other frequencies,  
which do not correspond to the intended use.  
If the frequencies are used, the user takes the responsibility for it.*

<b>Frequency</b>	<b>Time (Minutes)</b>
10 Rife-F. against Salmonella	05:00
5 Rife-F. against Chlamydia	02:30
1 Rife-F. against Nocardia asteroides	02:00
2 Rife-F. against Schistosomes	02:00
3 Rife-F. against Trichomonas vaginalis	01:30
1 Rife-F. against Gardnerella vaginalis	02:00
3 Rife-F. against Pinworms	01:30
Proteus vulgaris I 327 – 329 kHz (Clark)	01:30
Proteus vulgaris II 334 – 339 kHz (Clark)	03:00
Proteus vulgaris III 409 - 416 kHz (Clark)	04:00
Salmonella I 365 – 370 kHz (Clark)	06:00
Salmonella II, Chlamydia trachomatis, Trichomonas vaginalis 378 - 386 (Clark)	09:00
<b>Total</b>	<b>40:00</b>

**Supporting measures against Endometriosis:**

I recommend additional two standard-chips, which contain the frequencies  
against the pathogen and which can also play a role in the area of  
endometriosis:

- **TOOTH1(ZÄ1):**  
Gardnerella vaginalis, Helicobacter, Nocardia
- **THE 4 LARGE LEECHES(EG)**

A pregnancy often means the end of endometriosis.

Read in the dr Clarks book „Heilung ist möglich“ (Healing is possible) p. 61,  
136ff and 293.

## Frequency-Chip **Blood vessels (GEF)** (according to Raymond Rife) Version 001

### FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).  
The device shows now automatically the content of Chip-Card.  
Every Chip-Card works with any BioWave-Generator.  
Please be careful: Do not touch the gold side of the Chip.

If you want to use only one part of the program  
for ex. *Arteriosklerose*,  
you can just skip the preceding frequencies  
(Arrow PROGRAM down).

*Producer's note: The device can also generate other frequencies,  
which do not correspond to the intended use.  
If the frequencies are used, the user takes the responsibility for it.*

The Program contains following frequencies:

Frequency	Time (Minutes)
2 Rife-Frequencies against Varicosis (varicose veins)	05:00
2 Rife-Frequencies against Claudicatio intermittent	06:00
7 Rife-Frequencies against Arteriosklerose	21:00
4 Rife-Frequencies for the blood flow	12:00
<b>Total</b>	<b>44:00</b>

### **Supporting measures against vessels diseases and for blood vessels:**

Use the in BioWave built-in Frequency-Program **SN** (runny nose) and **SZ** (pain) and the **Rife-Chip**, if it to BioWave gratis enclosed is. These programs contain frequencies, which could be helpful in case of vessels diseases and blood vessels.

For varicose veins you can use additional the frequency-chip **Helicobacter (HEL)** and **4 large leeches (EG)**.

If the vascular disorders are associated with a high cholesterol content, use the chip **L(liver)**, which is designed for cholesterol reduction.

Because vitamin C deficiency makes vascular "holes", according to the Pauly and Raths research, the high-dose intake of vitamin C appears (the best in form of calcium ascorbate or bioflavonoids).  
For that fits the medicine ARTERIFORTE (pharmacy).

Dr Clark recommends also taking of Omega-3 fatty acids (fish, krill products) and liver herbs.

For the blood flow there are three common herbal remedies:  
Für die Durchblutung gibt es drei gängige pflanzliche Mittel:

- 1) Gingko-Preparations
- 2) Grapevine-Preparations
- 3) Horse chestnut (Aesculus-Preparations)

**Frequency-Chip FLU (GRI)**  
**(according to Raymond Rife and Dr. Hulda R. Clark)**  
**Version 001**

FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).

The device shows now automatically the content of Chip-Card.

Every Chip-Card works with any BioWave-Generator.

Please be careful: Do not touch the gold side of the Chip.

If you want to use only one part of the program,  
you can just skip the preceding frequencies  
(Arrow PROGRAM down).

*Producer's note: The device can also generate other frequencies,  
which do not correspond to the intended use.*

*If the frequencies are used, the user takes the responsibility for it.*

The Program contains  
following frequencies:

Frequency	Time (Minutes)
15 Rife-F. against flu	22:30
2 Rife-F. against Adenovirus	04:00
Influenza A+B 313,5 – 324 kHz (Clark)	12:00
Adenovirus I 371,5 - 387 kHz (Clark)	08:30
Adenovirus II 393 kHz (Clark)	03:00
<b>Total</b>	<b>50:00</b>

**More measures for flu:**

Use additional the frequency-chip **Headache/Migraine (KM)**, because it contains the frequencies against Shigella and these are, according to dr Clark, the reason of the flu.

Use the in BioWave built-in Frequency-Program

**GR** (flu) and **SN** (runny nose). These programs contain frequencies, which can be helpful in case of flu.

Support your immune system with the frequency-chip **IMMUNE (IM)**.

You can also increase the detoxification with the chip **DETOX (DTX)**.

Dredge from Shigella with turmeric and fennel capsules, take them 2-3 times  
2 pieces during eating.

Avoid re-infection with Shigella, by providing milk products to the Zappicator.

Avoid milk-products.

**Frequency-Chip SKIN (HT)**  
**(according to Dr. Hulda R. Clark and Raymond Rife)**  
**Version 001**

FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).  
 The device shows now automatically the content of Chip-Card.  
 Every Chip-Card works with any BioWave-Generator.  
 Please be careful: Do not touch the gold side of the Chip.

If you want to use only one part of the program  
 for ex. *Lupus*,  
 you can just skip the preceding frequencies  
 (Arrow PROGRAM down).

*Producer's note: The device can also generate other frequencies,  
 which do not correspond to the intended use.  
 If the frequencies are used, the user takes the responsibility for it.*

The Program contains following frequencies:

Frequency	Time (Minutes)
5 Rife-Frequencies against Psoriasis	10:00
5 Rife-Frequencies against Pruritis (Itch)	10:00
2 Rife-Frequencies against Ausschlag	06:00
9 Rife-Frequencies against Lupus	18:00
Staphylococcus aureus 376,5 - 381 kHz (Clark)	06:00
Ascaris 404 - 410 kHz (Clark)	07:00
<b>Total</b>	<b>57:00</b>

**Supporting measures for skin diseases:**

Use the in BioWave built-in Frequency-Program **SN** (runny nose) and the **Rife-Chip**, which is to BioWave gratis enclosed. These programs contain frequencies, which could be helpful in case of skin diseases.

There are a lot of the skin diseases, which not all can be covered by a frequency-chip. The skin diseases can have different causes, so I recommend

- in case of fungal infection – additionally the frequency-chip **MUSHROOMS** and an alkalizing treatment with base tablets
- in case of allergic skin diseases – additionally the chip **ALLERGIES**
- in case of herpes infection – additionally the chip **HERPES (HE)**
- in case of child-diseases – additionally the chip **CHILD-DISEASES (KK)**
- in case of eczema and psoriasis – additionally the chip **SAPROPHYTE** (especially the last 6 minutes)

Avoid, if possible, milk products and anything that can possibly lead to a food allergy (do a food allergies test). The colloidal silver is helpful in case of many skin diseases, sprayed on the skin in a concentration of 30ppm and additionally taken orally. Dr Clark recommends more liver cleanses.

Testimonials from therapists and private users shows, that **DETOX-Detoxifying Foot Baths** can be helpful against all forms of skin diseases and eczema, because they place the cellular metabolism back into balance. There are such DETOX-Systems both for therapeutic practices and for use at home.

**Frequency-Chip Helicobacter (HEL)**  
**(according to Dr. Hulda R. Clark and Raymond Rife)**  
**Version 001**

FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).  
The device shows now automatically the content of Chip-Card.  
Every Chip-Card works with any BioWave-Generator.  
Please be careful: Do not touch the gold side of the Chip.

If you want to use only one part of the program  
for ex. *Colics*,  
you can just skip the preceding frequencies  
(Arrow PROGRAM down).

*Producer's note: The device can also generate other frequencies,  
which do not correspond to the intended use.  
If the frequencies are used, the user takes the responsibility for it.*

**Supporting measures for Helicobacter:**

Take dr Clark's **parasite herbs**.

In case of lesions of the stomach with bacteria  
(ex. Helicobacter) you should take additionally the **colloidal silver** orally.

Meat and milk products should be cleaned by the **zappicator**.

Other Stomach disorders can be treated by the frequency-chip  
**Stomach (MAG)**.

Please keep in mind that dr Hulda Clark describes the  
Helicobacter as "Campylobacter".

The Program contains following frequencies:

<b>Frequency</b>	<b>Time (Minutes)</b>
9 Rife-Frequencies against Helicobacter	23:00
Helicobacter I 352 - 357 kHz (Clark)	06:00
Helicobacter II 365,5 – 370,5 kHz (Clark)	06:00
<b>Total</b>	<b>35:00</b>

**Frequency-Chip HERPES (HE)**  
**(according to Dr. Hulda R. Clark and Raymond Rife)**  
**Version 003**

FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).  
The device shows now automatically the content of Chip-Card.  
Every Chip-Card works with any BioWave-Generator.  
Please be careful: Do not touch the gold side of the Chip.

If you want to use only one part of the program,  
you can just skip the preceding frequencies  
(Arrow PROGRAM down).

*Producer's note: The device can also generate other frequencies,  
which do not correspond to the intended use.  
If the frequencies are used, the user takes the responsibility for it.*

The Program contains  
following frequencies:

Frequency	Time (Minutes)
20 Rife-Frequenzen against herpes	20:00
3 more Rife-F. against herpes	09:00
Herpes simplex 1 291 - 293 kHz (Clark)	02:30
Herpes simplex 1 345,5 kHz (Clark)	02:00
Herpes simplex 1 350 kHz (Clark)	02:00
Herpes simplex 2 354 - 363 kHz (Clark)	10:00
Herpes zoster 416,5 - 420 kHz (Clark)	08:00
<b>Total</b>	<b>53:30</b>

**Supporting measures for herpes:**

You can apply the zapper power (the chip program) directly to the herpes simplex. Use the bare metal plugs and clean them up with about 50% ethanol. If you feel itching or burning, reduce the intensity of the voltage.

Take the amino acid lysine, a high dose for 2-3 days: 2 x 3 capsules à 330mg.

Take also **colloidal silver** externally and orally.

Helpful is also the homeopathic **Mezereum** (daphne) in D<sub>6</sub> as a globule: 3-4 times daily suck 5 globules. Take it until a marked improvement has occurred.

It has also proven to be successful to apply the "**Rechts-Regulat**" on the cold sores. The earlier you do this, the better it works. Against shingles tea tree oil can also help good, applied externally.

This chip-program can be used against the post-herpes zoster pain, which occurs sometimes after years.

**Frequency-Chip HEART (HZ)**  
**(according to Raymond Rife and Dr. Hulda R. Clark)**  
**Version 003**

FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).  
 The device shows now automatically the content of Chip-Card.  
 Every Chip-Card works with any BioWave-Generator.  
 Please be careful: Do not touch the gold side of the Chip.

If you want to use only one part of the program  
 for ex. *Glaucom*,  
 you can just skip the preceding frequencies  
 (Arrow PROGRAM down).

*Producer's note: The device can also generate other frequencies,  
 which do not correspond to the intended use.  
 If the frequencies are used, the user takes the responsibility for it.*

**Supporting Measures for the Heart:**

I recommend two additional frequency-chips, which contain frequency against the pathogen, which can also play a role in the area of heart:

- **TEETH1:**  
Nocardia asteroides, Staphylococcus aureus, Streptococcus pneum.
- **VIRUS**  
Coxsackie-Virus

Use the in BioWave21-Icd built-in Frequency-Program  
**SN** (runny nose) and **SZ** (pain) and the gratis program **RIFE**. These programs contain frequencies, which could be helpful for the heart.

The **BioClien heart herbal** support on plant-therapeutic-level the function of the heart.

Read more to the topic in Dr.Clarks book "Heilung ist möglich" (Healing is possible), p.179ff and 366ff.

Just mentioned are the known risk factors for heart disease:  
 Overweight, smoking, physical inactivity, poor diet ...

And not only: Observe how carefully you live and interact. The heart is the organ of love and suffers from lack of love.

The Program contains following frequencies:

Frequency	Time (Minutes)
7 Rife-F. for the heart	07:00
1 Rife-F. against Nematodes	01:00
4 Rife-F. against Pneumococcal	04:00
6 Rife-F. against Streptococci	03:00
3 Rife-F. against Tuberculosis	03:00
3 Rife-F. against Candida	03:00
2 Rife-F. against Aspergillus	02:00
Loa Loa 360,551 kHz (Clark)	02:00
Staphylococcus aureus (Clark)	06:00
Dirofilaria immitis 408 - 411 kHz (Clark)	07:00
Candida 384 – 388 kHz (Clark)	04:30
Mycobacterium tuberc. 430,5 – 434 (Clark)	08:00
<b>Total</b>	<b>50:30</b>

**Frequency-Chip HIV**  
**(according to Dr. Hulda R. Clark and Raymond Rife)**  
**Version 001**

FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).  
 The device shows now automatically the content of Chip-Card.  
 Every Chip-Card works with any BioWave-Generator.  
 Please be careful: Do not touch the gold side of the Chip.

If you want to use only one part of the program,  
 you can just skip the preceding frequencies  
 (Arrow PROGRAM down).

*Producer's note: The device can also generate other frequencies,  
 which do not correspond to the intended use.*

If the frequencies are used, the user takes the responsibility for it.

The Program contains following frequencies:

Frequency	Time (Minutes)
3 Rife-Frequencies against HIV	06:00
5 Rife-Frequencies against AIDS	10:00
Paragonimus westemanni 437 - 454 kHz (Clark)	09:00
BREAK	10:00
Bacillus cereus 373,65 – 375,75 kHz (Clark)	07:00
BREAK	10:00
HI-Virus 365 kHz (Clark)	03:00
Zearalenone 100 kHz (Clark)	03:00
<b>Total</b>	<b>58:00</b>

**Supporting Measures for HIV/AIDS:**

I strongly recommend to use additionally the chip **EG**, which contains the frequencies against the *Fasciolopsis buski* and *Eurytrema pancreaticum*. To build up the immune system you can eventually use the **IMMUNE** chip.

Take parallel for frequency-use parasite herbs and "Rechtsregulat".

**Avoid:**

- Benzene solvent (toothpaste, ice cream, bought bread, bottled water, petrol station)  
Vitamin B2 (high dosed) detoxified the benzene
- Asbestos (asbestos cement, storage heaters, fire protection spray cleaning, sealing rings, tires, brake and clutch linings, washing machine, dryer, etc.)
- Lanthanides, which are magnetic metals (in fruit and vegetable colors, pesticides, dental fillings and prostheses, etc.). To discharge the lanthanides stick a 10-Gauss magnet on the 7th cervical spine keg.
- PCB (capacitors, sealants, fluorescent lights, flame retardants, plasticizers, soaps, detergents and cleaning products)

Place your food on the Zappicator.

The use of these frequencies does not replace medical treatment, but it is a supportive measure to combat the HIV virus.

## Frequency-Chip

# EAR, NOSE AND THROAT <ENT> 1 (HNO1)

(according to Dr. Hulda R. Clark and Raymond Rife)

Version 003

### FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).

The device shows now automatically the content of Chip-Card.

Every Chip-Card works with any BioWave-Generator.

Please be careful: Do not touch the gold side of the Chip.

If you want to use only one part of the program,

you can just skip the preceding frequencies

(Arrow PROGRAM down).

*Producer's note: The device can also generate other frequencies, which do not correspond to the intended use.*

*If the frequencies are used, the user takes the responsibility for it.*

The Program contains following frequencies:

Frequency	Time (Minutes)
5 Rife-F. against Chlamydia pneumoniae	05:00
4 Rife-F. against Aspergillus	04:00
2 Rife-F. against Nocardia asteroides, Branhamella catarrhalis	04:00
3 Rife-F. for lymph	06:00
3 Rife-F. against Epstein-Barr-Virus	03:00
6 Rife-F. against Neisseria gonorrhoeae	06:00
Neisseria gonorrhoeae 334 – 336,5 kHz (Clark)	03:00
Gaffkya tetragena 345 – 352,5 kHz (Clark)	04:00
Nocardia asteroides I 355 kHz (Clark)	03:00
Nocardia asteroides II 364 - 370 kHz (Clark)	03:30
Epstein-Barr-Virus 372,5 - 382,5 kHz (Clark)	05:30
Branhamella catarrhalis 395 – 396,5 kHz (Clark)	04:00
<b>Total</b>	<b>51:00</b>

## Supporting Measures for Ear-Nose and Throat <ENT>:

An ENT disease can be caused by tooth-interference field, particularly to adults and especially if it always comes. Tooth interference field means that the bacteria are trapped deep in the pine (what often is not even visible on dental radiographs and must be tested bioenergetically). From these bacteria herds radiate continuously bacteria to the head and potentially the whole body.

Therefore I recommend additionally the frequency chip TEETH 1 which contains the important bacteria-frequencies from Hulda Clark. (possibly the chip **BAK** with bacteria-frequencies from Rife).

This also includes the treatment with the **dental probe**.

I recommend also the frequency-chip **HNO2 <ENT2>** which contains the rife-frequencies for the area of ENT, particularly against inflammations.

Very well has proven, in ENT area, taking **colloidal silver**.

## Frequency-Chip

# EAR, NOSE AND THROAT <ENT> 2 (HNO2)

(according to Dr. Hulda R. Clark and Raymond Rife)

Version 001

### FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).

The device shows now automatically the content of Chip-Card.

Every Chip-Card works with any BioWave-Generator.

Please be careful: Do not touch the gold side of the Chip.

If you want to use only one part of the program,

you can just skip the preceding frequencies

(Arrow PROGRAM down).

*Producer's note: The device can also generate other frequencies, which do not correspond to the intended use.*

*If the frequencies are used, the user takes the responsibility for it.*

The Program contains following frequencies:

Frequency	Time (Minutes)
9 Rife-F. against Sinusitis	16:30
2 Rife-F. gegen external ear inflammation	03:00
5 Rife-F. against middle ear inflammation	07:30
3 Rife-F. against Tonsillitis (tonsillitis)	04:30
4 Rife-F. against Laryngitis (throat inflammation)	06:00
4 Rife-F. against pneumococcal	06:00
Haemophilus influenzae 336,41 kHz (Clark)	03:00
<b>Total</b>	<b>46:30</b>

Let run the whole chip by all ENT problems, because the frequencies overlap partly.

### Supporting Measures for Ear-Nose and Throat <ENT>:

Because middle ear inflammation and ulceration can be caused by streptococci and staphylococci, I absolutely recommend additional usage of the chip **TEETH 1** which contains the frequencies against different types of streptococcal and staphylococcal.

Use the in BioWave built-in Frequency-Program

**SN** (runny nose) and **SZ** (pain) and the **Rife-Chip**. These programs contain frequencies, which could be helpful in the area of ENT-inflammations.

A dentist that can also test bio-energetically, should verify, whether the disturbance focus of the teeth exist. These are often not detected by X-ray images and can also exist many years after a tooth extraction. Such disturbance focus are true "bacteria-spin".

Use oregano tooth powder for cleaning the teeth. This kills some highly toxic bacteria (ex Clostridium) or weakens it.

Take care of your teeth to keep the spaces and the gum pockets clean (with interdental brushes and Salviagalén tincture). Replace your toothbrush every 4 weeks.

With the chip **DETOX (DTX)** you can detoxify and you can use the new chip **CANDIDA (CAN)** against an intestinal fungus which often play a role to the ENT-problems.

I recommend eventually the frequency chip **HNO 1** <ENT 1> which contains other Rife and Clark frequencies for the area of ear, nose and throat (ENT).

Very well has proven, in ENT area, taking **colloidal silver**.

**Frequency-Chip**  
**Human Papilloma Virus (HPV)**  
**Version 001**

FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).  
The device shows now automatically the content of Chip-Card.  
Every Chip-Card works with any BioWave-Generator.  
Please be careful: Do not touch the gold side of the Chip.

If you want to use only one part of the program,  
you can just skip the preceding frequencies  
(Arrow PROGRAM down).

*Producer's note: The device can also generate other frequencies,  
which do not correspond to the intended use.  
If the frequencies are used, the user takes the responsibility for it.*

**Further informations about HPV:**

Before using the chip HPV use always the chip **Blood (BL)**  
(12 minutes).

Dr. Hulda Clark has repeatedly intonated the importance of taking the parasite  
herbs additionally to frequency therapy.

I recommend you **DETOX-Detoxifying Foot Baths**, because they place the  
cellular metabolism back into balance.  
There are such DETOX-Systems both for therapeutic practices and for use at  
home.

It is also recommend to use possibly the additional frequency-chip **WARTS**  
**(WZ)**, because the HPV hides in warts - according to Hulda Clark. Use firstly  
the chip **WARTS** and the the chip **HPV**.

The Program contains  
following frequencies:

<b>Frequency</b>	<b>Time (Minutes)</b>
18 Rife-Frequencies against Papilloma-Virus	41:00
<b>Total</b>	<b>41:00</b>

**Frequency-Chip CHILDREN DISEASES (KK)**  
**(according to Raymond Rife and Dr. Hulda R. Clark)**  
**Version 003**

FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).  
 The device shows now automatically the content of Chip-Card.  
 Every Chip-Card works with any BioWave-Generator.  
 Please be careful: Do not touch the gold side of the Chip.

If you want to use only one part of the program,  
 you can just skip the preceding frequencies  
 (Arrow PROGRAM down).

*Producer's note: The device can also generate other frequencies,  
 which do not correspond to the intended use.  
 If the frequencies are used, the user takes the responsibility for it.*

**Supporting Measures against Children diseases:**

I recommend two additional frequency-chips, which contain frequency against  
 the pathogen, which can also play a role in the area of children diseases:

- TEETH 1** (Streptococcus pyogenes) in case of scarlet
- EBV** (Ebstein-Barr-Virus) in case of Pfeiffer's glandular fever

Use the in BioWave21-Icd built-in Frequency-Program  
**SN** (runny nose) and **SZ** (pain). These programs contain frequencies, which  
 could be helpful against the children's diseases.

In general: Let run, each day, only one frequency chip, and later the same  
 day (before twilight) the Clarksche 3x7-minute program. It can be too much  
 zapping for children, during the day.  
 Use therefore the frequency chip CHILDREN DISEASES on day 1, and the 3x7-  
 minute program during the 2nd day, and so on.

To support the detoxification I recommend:  
 Homeopathic globules Sulfur D6 from the Pharmacy: Daily 3 times 5 granules

The Program contains  
 following frequencies:

Frequency	Time (Minutes)
5 Rife-F. against whooping cough (diphtheria)	02:30
9 Rife-F. against Mumps	04:30
3 Rife-F. against Windpocken	03:00
5 Rife-F. against rubella	05:00
2 Rife-F. against scarlet	02:00
3 Rife-F. against polio	03:00
Bordetella pertussis 330 – 332 kHz (Clark)	05:00
Corynebacterium diphter. 340 – 344 kHz (Clark)	05:00
Diplococcus diphteriae 358 - 364 kHz (Clark)	07:00
Masern-Antigen 370 – 373 kHz (Clark)	04:00
Mumps-Antigen 378 – 384 (Clark)	07:00
<b>Total</b>	<b>48:00</b>

**Frequency-Chip BONES/JOINTS (KNO)**  
**(according to Dr. Hulda R. Clark and Raymond Rife)**  
**Version 001**

FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).  
 The device shows now automatically the content of Chip-Card.  
 Every Chip-Card works with any BioWave-Generator.  
 Please be careful: Do not touch the gold side of the Chip.

If you want to use only one part of the program,  
 you can just skip the preceding frequencies  
 (Arrow PROGRAM down).

*Producer's note: The device can also generate other frequencies,  
 which do not correspond to the intended use.  
 If the frequencies are used, the user takes the responsibility for it.*

The Program contains following frequencies:

Frequency	Time (Minutes)
6 Rife-Frequencies for bones	13:00
3 Rife-Frequencies against Osteitis (bone inflammation)	05:00
7 Rife-Frequencies against Spondylitis (Vertebral inflammation)	11:00
6 Rife-Frequencies against pelvic problems	13:00
3 Rife-Frequencies for the bone marrow (Osteomyelitis, Osteomyelose)	04:00
6 Rife-Frequencies against joint disorders	12:00
<b>Total</b>	<b>58:00</b>

**Supporting Measures against bones diseases and for bones:**

Use the in BioWave built-in Frequency-Programs  
**SN** (runny nose), **SZ** (pain) and the Gratis-Chip **RIFE**.  
 These programs contain frequencies, which can be helpful for bones diseases and for bones.

According to Hulda Clark are the joint-pain caused by bacteria.  
 Therefore, use additionally the frequency-chip **Teeth 1 (ZÄ1)**.

You can also use the frequency-chip **Arthritis-Rheumatism-Fibromyalgia (ARF)**.

**Frequency-Chip**  
**HEADACHE/ MIGRAINE (KM)**  
 (according to Dr. Hulda R. Clark and Raymond Rife)  
 Version 002

FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).  
 The device shows now automatically the content of Chip-Card.  
 Every Chip-Card works with any BioWave-Generator.  
 Please be careful: Do not touch the gold side of the Chip.

If you want to use only one part of the program,  
 you can just skip the preceding frequencies  
 (Arrow PROGRAM down).

*Producer's note: The device can also generate other frequencies,  
 which do not correspond to the intended use.  
 If the frequencies are used, the user takes the responsibility for it.*

The Program contains following frequencies:

Frequency	Time (Minutes)
9 Rife-Frequencies against headache	11:00
4 Rife-Frequencies Against migraine	12:00
5 Rife-Frequenzen against strongyloides	05:00
Shigella 318 kHz, 390,089 kHz, 394 kHz (Clark)	09:00
Salmonella 329 kHz, 365 – 370 kHz, 382,5 – 386,5 kHz (Clark)	08:30
Strongyloides 398,5 – 402 kHz (Clark)	02:30
2 Frequencies against headache	06:00
Dirofilaria immitis 410 – 411 kHz (Clark)	04:00
<b>Total</b>	<b>58:00</b>

**Supporting Measures for headache/ mirgaine:**

Use the in BioWave built-in Frequency-Programs **SN** (runny nose), **SZ** (pain) and the Gratis-Chip **RIFE**.

These programs contain frequencies, which can be helpful for headache/migraine. Use moreover the frequency-chip **TEETH 1** which contain frequencies against Clostridia, Staphylococcus aureus, Streptococci and E. coli.

Testimonials from therapists and private users shows, that **DETOX-Detoxifying Foot Baths** can be helpful against all forms of skin diseases and eczema, because they place the cellular metabolism back into balance. There are such DETOX-Systems both for therapeutic practices and for use at home.

The headache-causing bacteria often occur in tooth infection. Therefore, I recommend a remediation of tooth and the use of Zappicator-tooth probe. (these are available as accessories for BioWave).

Dredge Shigella with turmeric and fennel capsules, take them 2-3 times  
 2 pieces during eating. Avoid re-infection with Shigella, by providing milk products to the Zappicator. Avoid chocolate.

Strength the bile-meridian by acupuncture or meridian massage, it is also recommended to take liver herbs to support gallbladder's activity.

Directly effective, against acute pain is the TENS using (transcutaneous electrical nerve stimulation) directly on the head or neck. You can get TENS devices at Biocenter24.com.

I also recommend several weeks of kidney cleaning and then clean several times the liver (according to Dr. Hulda Clark).

Dr. Clark suggests to relieve oneself twice a day  
 (Activate, Cascada sagrada and magnesium oxide. It suggests to avoid tyramine-containing foods such as yogurt, sour cream, cheese or wine. (Tyramine is produced during the decomposition of proteins, often present in food which arise by fermentation)).

**Frequency-Chip LUNG/BRONCHI (LU)**  
**(according to Raymond Rife and Dr. Hulda R. Clark)**  
**Version 004**

FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).  
 The device shows now automatically the content of Chip-Card.  
 Every Chip-Card works with any BioWave-Generator.  
 Please be careful: Do not touch the gold side of the Chip.

If you want to use only one part of the program,  
 you can just skip the preceding frequencies  
 (Arrow PROGRAM down).

*Producer's note: The device can also generate other frequencies,  
 which do not correspond to the intended use.  
 If the frequencies are used, the user takes the responsibility for it.*

**Supporting Measures for Lung and Bronchi:**

I recommend additionally the chip **TEETH 1**, because it contains more important bacteria-frequencies which can concern the area of lung/bronchi. The same to the chip **MUSHROOMS**, because 'this' play a role in bronchi and lung problems.

Use the in BioWave21-Icd built-in Frequency-Program **SN** (runny nose) and **SZ** (pain). These programs contain frequencies, which could be helpful to lung and bronchi.

Optionally, you have got a **BACTERIA ACCORDING TO RIFE**-chip which contains important bacteria-frequencies from Rife.

The **BioClien lung herbs** support on plant-therapeutic-level the function of the lung and bronchi.

It is recommended to do breathing exercises this kind: respiratory therapy, yoga, easy sports, active meditation, Chi-Gong, Tai-Chi, etc. ..

The compound Q10 supports the lung meridian, take 1x1 capsule in the morning.  
 Tagetes Tea has proven itself against Ascaris.

The Program contains following frequencies:

Frequency	Time (Minutes)
7 Rife-F. against pneumonia	04:00
6 Rife-F. against Bronchial-Asthma	06:00
3 Rife-F. for the lung	03:00
8 Rife-F. against lung-bacteria	06:00
Bacteroides fragilis, Mycoplasma 1 323 – 326 kHz (Clark)	03:30
Bordetella pertussis, Pseudomonas 330 – 334 kHz (Clark)	05:00
Haemophilus influenzae 336,41 kHz (Clark)	03:00
Mycoplasma 2 343–349 kHz (Clark)	05:00
Branhamella catarrhalis	02:00
Klebsiella pneumoniae 1 398,5 – 404,5 kHz (Clark)	05:00
Ascaris, Pneumocystis carinii 405 – 409 kHz (Clark)	05:00
Klebsiella pneumoniae 2 417 – 421,5 kHz (Clark)	04:00
Mycobacterium tuberc. 431 – 434 kHz (Clark)	04:00
Paragonimus westerm. 438 – 454 kHz (Clark)	05:00
<b>Total</b>	<b>60:30</b>

**Frequency-Chip Stomach (MAG)**  
**(according to Dr. Hulda R. Clark and Raymond Rife)**  
**Version 001**

FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).

The device shows now automatically the content of Chip-Card.

Every Chip-Card works with any BioWave-Generator.

Please be careful: Do not touch the gold side of the Chip.

If you want to use only one part of the program,  
you can just skip the preceding frequencies  
(Arrow PROGRAM down).

Producer's note: The device can also generate other frequencies,  
which do not correspond to the intended use.  
If the frequencies are used, the user takes the responsibility for it.

**Supporting Measures for stomach disorders:**

Use the in BioWave built-in Frequency-Programs

**SN** (runny nose), **SZ** (pain) and the Gratis-Chip **RIFE**.

These programs contain frequencies, which can be helpful for stomach disorders.

When infected with Helicobacter (also „Campylobacter“) use  
additionally the frequency-chip **Helicobacter (HEL)**.

Against Salmonella (diarrhea) and Shigella (usually associated with  
sickness), I recommend the chip **HEADACHE / MIGRAINE (KM)**  
from the 19th Frequency: 318 kHz. Against Salmonella helps Lugol's  
solution, 6 drops 3 times a day in 1 cup water.

Do not use if you have iodine allergy. Against Shigella 3x daily  
2 capsules turmeric plus 2 capsules fennel.

One can produce too much or too little stomach acid. Too much is  
usually expressed as heartburn and can be treated with homeopathic  
acidum D30 or C30 hydrochloricum once daily 5 globules or droplets  
(allopathic treatment for eg. with Talcid or Rennie's tablets).  
Not enough stomach acid often manifests itself as a feeling of  
fullness (bloating) after eating. This can be treated by taking  
homeopathic acidum D6 hydrochloricum (with each meal).

Take also dr. Clark's **parasite herbs**.

Even the Regulat (cascade-fermented concentrate  
from fruits, nuts and vegetables) helps with stomach and  
digestive problems.

Meat and milk products should be cleaned with the zappicator  
(the food-zapper).

The Program contains following  
frequencies:

Frequency	Time (Minutes)
7 Rife-Frequencies against stomach disorders and ulcers	18:00
3 Rife-Frequencies against colic	06:00
5 Rife-Frequencies against stomach-gases	08:30
Bacteroides fragilis 324 - 326 kHz (Clark)	06:00
Escherichia coli 356 und 393 kHz (Clark)	06:00
Toxoplasma 395 kHz (Clark)	03:00
Giardia lamblia 422 - 426 kHz (Clark)	05:00
<b>Total</b>	<b>52:30</b>

**Frequency-Chip**  
**MENINGITIS/ENZEPHALITIS (ME)**  
**(according to Raymond Rife and Dr. Hulda R. Clark)**  
**Version 001**

FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).  
The device shows now automatically the content of Chip-Card.  
Every Chip-Card works with any BioWave-Generator.  
Please be careful: Do not touch the gold side of the Chip.

If you want to use only one part of the program,  
you can just skip the preceding frequencies  
(Arrow *PROGRAM* down).

The Program contains  
following frequencies:

<b>Frequency</b>	<b>Time (Minutes)</b>
9 Rife-F. against Meningitis 1	18:00
4 Rife-F. against Meningitis 2	08:00
13 Rife-F. against Meningitis 3	26:00
1 Rife-F. against Enzephalitis	03:00
<b>Total</b>	<b>55:00</b>

In meningitis (inflammation of the meninges, can also infect the spinal cord) is it important to identify the pathogen, which has caused it, because a viral meningitis has a much milder course and causes much less damages as a result of bacterial meningitis. Depending on which pathogen is questioned, I recommend the additional application of the appropriate frequency chips:

**Possible viral pathogens:**

- Coxsackie-Virus (Frequency-Chip VIRUS)
- Mumps and measles viruses (Chip CHILDREN' DISEASES)
- Herpes-Virus (Chip HERPES)
- Epstein-Barr-Virus (Chip EBV)
- HIV (Chip HIV)

**Possible bacterial pathogens:**

- Streptococci (chip TEETH 1)
- Haemophilus influenzae and pneumococcal  
(Chips BACTERIA ACCORDING TO RIFE and LUNG)
- Borrelia (TBE = tick-borne encephalitis,  
often transmitted by ticks): Chip BORRELIOSIS

**Frequency-Chip MITE (MIL)**  
**(according to Dr. Hulda R. Clark)**  
**Version 001**

FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).  
The device shows now automatically the content of Chip-Card.  
Every Chip-Card works with any BioWave-Generator.  
Please be careful: Do not touch the gold side of the Chip.

*Anmerkung des Herstellers: Das Gerät kann auch andere Frequenzen erzeugen, die nicht dem bestimmungsgemäßen Gebrauch entsprechen. Wenn diese Frequenzen verwendet werden übernimmt der Anwender die Verantwortung.*

The Program contains following frequencies:

Frequency in kHz	Time (Minutes)
Demodex folliculorum 682 kHz	3:00
Dermatophagoides (dust mite) 707 kHz	5:00
Flour mite 718 kHz	3:00
Ornithonyssus (bird mite) 877, 878 kHz	8:00
Sarcoptes scabiei (scabies) 735kHz	6:00
<b>Total</b>	<b>25:00</b>

**Notes to mite:**

Dr. Hulda Clark writes:

„Mites are organisms with which viruses penetrate as 'free riders' in the body.“

Because, during zapping of the mite, the viruses can be released in the body, run after the using of the chip MITES necessarily the 3x7-minute zapper-programme.

Da Milben oft Hautstörungen oder –krankheiten hervorrufen, ergibt sich außerdem eine Verwandtschaft zum **Chip HT (Haut)**.

**Frequency-Chip Muscles (MUS)**  
**(according to Raymond Rife)**  
**Version 00**

The Program contains following frequencies:

Frequency	Time (Minutes)
2 Rife-Freq. against muscles' cramps	04:00
2 Rife-F. for the muscles' relaxation	04:00
7 Rife-F. against Ataxia (M.-Incoordination) and Low back pain (lumbago)	17:00
6 Rife-F. against tendomyopathy (muscles' pain)	14:00
3 Rife-F. against Myositis (muscle-inflammation)	06:00
<b>Total</b>	<b>45:00</b>

FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).  
 The device shows now automatically the content of Chip-Card.  
 Every Chip-Card works with any BioWave-Generator.  
 Please be careful: Do not touch the gold side of the Chip.

If you want to use only one part of the program, you can just skip the preceding frequencies (Arrow PROGRAM down).

*Producer's note: The device can also generate other frequencies, which do not correspond to the intended use. If the frequencies are used, the user takes the responsibility for it.*

**Supporting Measures against muscles disorders or diseases:**

Use the in BioWave built-in Frequency-Programs

**SN** (runny nose), **SZ** (pain) and the Gratis-Chip **RIFE**.

These programs contain frequencies, which can be helpful for muscles disorders / diseases. Because there arise overlaps, I recommend the frequency-chip **Arthritis, Rheumatism and Fibromyalgia (ARF)**.

The bacteria can also be the reason for muscles **pain**.

In this case the chip **TEETH 1** can be used, against the bacteria.  
 For immediate relief of pain you can use a TENS device.

Dr. Clark recommends several kidney cleanings (2-6 weeks) and avoiding drinks that contain oxalic acid (black tea, iced tea, cocoa). Industrial drinks and flavored foods should be avoided because of their possible content of xylene and toluene

(see the book "Healing is possible", p. 119ff and 260f).

Against cramps you should take calcium and magnesium (magnesium oxide or magnesium citrate are good bio-available; Calcium best as a "Schüssler salt" calcium phosphate).

Lead is it also useful for cramps, homeopathic Plumbum metallicum D10, 5 globules every 1-2 days (once daily).

**Frequency-Chip KIDNEYS (NIE)**  
**(according to Raymond Rife and Dr. Hulda R. Clark)**  
**Version 003**

FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).  
The device shows now automatically the content of Chip-Card.  
Every Chip-Card works with any BioWave-Generator.  
Please be careful: Do not touch the gold side of the Chip.

If you want to use only one part of the program,  
you can just skip the preceding frequencies  
(Arrow PROGRAM down).

*Producer's note: The device can also generate other frequencies,  
which do not correspond to the intended use.  
If the frequencies are used, the user takes the responsibility for it.*

The Program contains  
following frequencies:

Frequency	Time (Minutes)
11 Rife-F. against kidney insufficiency	05:30
<b>2 Rife-F.</b> against nephritis	02:00
4 Rife-F. against Klebsiella, Pseudomonas	02:00
Proteus mirabilis I, Proteus vulgaris I 321 – 329 kHz (Clark)	09:00
Pseudomonas, Proteus vulgaris II 332 – 339 kHz (Clark)	08:00
Proteus mirabilis II, Serratia marcescens 346 – 352 kHz (Clark)	07:00
Schistosoma mansoni 353 kHz (Clark)	02:00
Klebsiella I 398,5 – 404,5 kHz (Clark)	07:00
Proteus vulgaris III, Cytomegalie-Virus, Klebsiella II, Eurytrema pancreaticum 409 – 422 kHz (Clark)	14:00
<b>Total</b>	<b>56:30</b>

**Supporting Measures for kidneys:**

I recommend additional two standard-chips, which contain the frequencies against the pathogen and which can also play a role in the area of kidneys:

- **TOOTH1(ZÄ1):**  
Staphylococcus aureus, streptococci, Escherichia coli
- **EVB** (Epstein-Barr-Virus)

Use the in BioWave21-Icd built-in Frequency-Program **SN** (runny nose) and **SZ** (pain) and the gratis program **RIFE**. These programs contain frequencies, which could be helpful for the kidneys.

Avoid over-acidification of your body through basic nutrition (see instructions for zapping) and taking tablets based on citrate .

Drink plenty of noncarbonated water (3 liters per day) and take a kidney herbs.

Because according to the Chinese Organ Clock, the lungs the "mother" of the kidney are, is it also advisable to take lung herbs to strengthen the lungs and thus indirectly energetically the kidneys.

**Frequency-Chip Parkinson (PAR)**  
**(according to Dr. Hulda R. Clark and Raymond Rife)**  
**Version 001**

FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).  
The device shows now automatically the content of Chip-Card.  
Every Chip-Card works with any BioWave-Generator.  
Please be careful: Do not touch the gold side of the Chip.

If you want to use only one part of the program,  
you can just skip the preceding frequencies  
(Arrow PROGRAM down).

*Producer's note: The device can also generate other frequencies,  
which do not correspond to the intended use.  
If the frequencies are used, the user takes the responsibility for it.*

The Program contains following frequencies:

<b>Frequency</b>	<b>Time (Minutes)</b>
6 Rife-Frequencies against Parkinson	12:00
3 Rife-Frequencies against Tremor	06:00
8 Rife-Frequencies against Nocardia asteroides	16:00
1 Rife-Frequency against Toxoplasma	03:00
Nocardia asteroides I 355 kHz (Clark)	02:00
Nocardia asteroides II 364 - 370 kHz (Clark)	08:00
<b>Total</b>	<b>47:00</b>

**Supporting Measures for Parkinson:**

Because herpes viruses have an association with Parkinson's  
disease, use necessarily the frequency-chip **HERPES (HE)**.

Take a heavy metal excretion, either according to Klinghardt (wild  
garlic, seaweed and cilantro) or according to Clark (LG-cure for  
discharging mercury and thallium,  
LA-cure for discharging all other metals).

**Frequency-Chip FUNGI (PI)**  
**(according to Raymond Rife and Dr. Clark)**  
**Version 002**

The Program contains  
 following frequencies:

FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).  
 The device shows now automatically the content of Chip-Card.  
 Every Chip-Card works with any BioWave-Generator.  
 Please be careful: Do not touch the gold side of the Chip.

If you want to use only one part of the program,  
 you can just skip the preceding frequencies  
 (Arrow PROGRAM down).

*Producer's note: The device can also generate other frequencies,  
 which do not correspond to the intended use.  
 If the frequencies are used, the user takes the responsibility for it.*

Frequency	Time (Min.)
11 Rife-F. against Candida albicans	11:00
Aflatoxin (Rife)	03:00
4 Rife-F. against Aspergilli	04:00
Mucor mucedo (Rife)	02:00
Mucor racemosus (Rife)	02:00
5 Rife-F. against Penicillium	05:00
Candida (Clark) 384-388 kHz	09:00
Aflatoxin (Clark) 177,2 und 188 kHz	04:00
Cytochalasin B (Clark) 77 and 91 kHz	02:00
Sterigmatocystin (Clark) 88, 96, 126 und 133 kHz	03:00
Argyria (Clark), 81 kHz	01:00
Zearalenon (Clark), 100 kHz	01:00
Lycogala (Clark), 126 kHz	01:00
Stemonitis (Clark), 211 kHz	01:00
Sorghum-Sirup (Clark) 277 kHz	01:00
Mucor mucedo (Clark), 288 kHz	01:00
Mutterkorn (Clark), 295 kHz	01:00
<b>Total</b>	<b>52:00</b>

**Supporting Measures for fungal infestation:**

- 1) The important thing in case of fungal infections is de-acidification of the organism. I recommend tablets based on citrate.
- 2) In the nutrition the white flour products (white bread, pasta, cakes, etc. ..) and especially sugar should be avoided. See also our guide for zapping.
- 3) **Heavy metals constitute a kind of anchor for fungi in the body. Therefore, you should drain out heavy metals.**  
 Either classically according to Klinghardt (algae, garlic, coriander) or with the LG-treatment according to Dr. Hulda Clark (lysine and glutamine, everything).
- 4) **Colloidal silver** is effective against fungi and their spores. It can be taken orally or rubbed on the skin.
- 5) Well would be a gut renovation with bifidum and / or acidophilus supplements, eg SymbioLact A (acidophilus, more concerns the small intestine) or SymbioLact B (bifidum - the colon). There are a number of useful products such as probiotic, Mutaflor, EM1 (effective microorganisms). Preferably with help of a reliable test or stool test you can find something suitable.
- 6) Homeopathic preparations of the company Sanum Kehlbeck are also excellent: 1 suppository in the evening alternately (suppositories-torium) EXMYKEHL and on another evening ALBICANSAN introduce a suppository before bedtime.
- 7) Tea Tree Oil (externally, eg foot fungi) and / or bread-Trunk (internally and externally)
- 8) Do not forget a tooth restoration : the bacteria from teeth and jaw spread steadily into the body and injure the milieu, so that fungi can colonize easily. I recommend the frequency chips **Teeth 1 (ZÄ1)** and **LUNG / BRONCHIAL (LU)** used against bacteria.
- 9) If infected with aspergilli the chip **Aspergilli (ASP)** should be used, if infected with Candida use the chip **Candida (CAN)**.

**Frequency-Chip Tinnitus (TIN)**  
**(according to Dr. Hulda R. Clark and Raymond Rife)**  
**Version 001**

FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).

The device shows now automatically the content of Chip-Card.

Every Chip-Card works with any BioWave-Generator.

Please be careful: Do not touch the gold side of the Chip.

If you want to use only one part of the program,  
you can just skip the preceding frequencies  
(Arrow PROGRAM down).

*Producer's note: The device can also generate other frequencies,  
which do not correspond to the intended use.  
If the frequencies are used, the user takes the responsibility for it.*

The Program contains following frequencies:

<b>Frequency</b>	<b>Time (Minutes)</b>
4 Rife-Frequencies for the blood circulation	11:00
5 Rife-Frequencies against Tinnitus	11:00
6 Rife-Frequencies against dental foci	14:00
Fasciolopsis Buski 428 – 436 kHz (Clark)	09:00
Ascaris 404 – 409 kHz (Clark)	06:00
<b>Total</b>	<b>51:00</b>

**Supporting Measures for Tinnitus:**

Use the in BioWave built-in Frequency-Program

**SN** (runny nose) and the **Rife-Chip**, which is to BioWave gratis enclosed.

These programs contain frequencies, which could be helpful in case of Tinnitus.

Because bacteria and inflammation - particularly in head - can be the reason for tinnitus, use additionally the frequency-chip **TOOTH 1** and also **the first 14 frequencies of the chip HNO 2** (= sinusitis and otitis, and up to 786 Hz frequency).

Bacteria often arise in dental foci. Therefore, I recommend a rehabilitation of the teeth and the use of zappicator dental probe (these are available as accessories for BioWave).

You can also take vitamin B3, but please be careful with the dosage here!

See also the book "Healing is Possible" of Hulda Clark, P. 205ff.

**Frequency-Chip VAGINAL-FLUOR (VAG)**  
**(according to Raymond Rife and Dr. Hulda R. Clark)**  
**Version 002**

FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).

The device shows now automatically the content of Chip-Card.

Every Chip-Card works with any BioWave-Generator.

Please be careful: Do not touch the gold side of the Chip.

If you want to use only one part of the program,  
you can just skip the preceding frequencies  
(Arrow PROGRAM down).

*Producer's note: The device can also generate other frequencies,  
which do not correspond to the intended use.*

*If the frequencies are used, the user takes the responsibility for it.*

The Program contains  
following frequencies:

Frequency	Time (Minutes)
6 Rife-F. against Candida	06:00
11 Rife-F. against Herpes simplex	11:00
5 Rife-F. against Fluor albus	05:00
4 Rife-F. against Treponema pallidum, Neisseria gonorrhoeae, Ureaplasma, Branhamella catarrhalis	04:00
Herpes simplex I 291,5 - 293 kHz (Clark)	02:00
Neisseria gonorrhoea 334 – 336,5 kHz (Clark)	03:00
Herpes simplex II 345,4 - 345,7 kHz (Clark)	02:00
Treponema pallidum 347 kHz (Clark)	03:00
Herpes simplex III 354 – 363 kHz (Clark)	05:00
Branhamella catarrhalis 395 – 396,5 kHz (Clark)	04:00
Candida 384 - 388 kHz (Clark)	05:00
<b>Total</b>	<b>50:00</b>

**Supporting Measures against Vaginal-Fluor:**

I recommend additional two standard-chips, which contain the frequencies  
against the pathogen and which can also play a role in the area of  
endometriosis:

- **TOOTH1:**  
Streptococci, staphylococci, Gardnerella vaginalis, Neisseria  
gonorrhoeae
- **ENDOMETRIOSIS:**  
Chlamydia trachomatis, Trichomonas vaginalis

Use the in BioWave built-in Frequency-Programs  
**SN** (runny nose), **SZ** (pain) and the Gratis-Chip **RIFE**.  
These programs contain frequencies, which can be helpful  
for Vaginal-Fluor.

**Frequency-Chip 4 LARGE LEECHES (EG)**  
**(according to Dr. Hulda R. Clark)**  
**Version 002**

FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).  
The device shows now automatically the content of Chip-Card.  
Every Chip-Card works with any BioWave-Generator.  
Please be careful: Do not touch the gold side of the Chip.

*Producer's note: The device can also generate other frequencies,  
which do not correspond to the intended use.  
If the frequencies are used, the user takes the responsibility for it.*

The Program contains following frequencies:

Large intestinal fluke (fasciolopsis buskii)  
Sheep liver fluke (fasciola hepatica)  
Dicrocoelium (clonorchis sinensis)  
Pancreatic fluke (eurytrema pancreat.)

Frequency in kHz	Time (Minutes)
420 – 436,8 in 350Hz-Steps each minute	49:00

**Notice to 4 large leeches:**

One or more of these leeches are made responsible for many diseases by Dr. Clark, so that this program-chip can be used with other chip.

**Frequency-Chip VIRUSES (VI)**  
**(according to Raymond Rife and Dr. Hulda R. Clark)**  
**Version 003**

FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).  
 The device shows now automatically the content of Chip-Card.  
 Every Chip-Card works with any BioWave-Generator.  
 Please be careful: Do not touch the gold side of the Chip.

If you want to use only one part of the program,  
 you can just skip the preceding frequencies  
 (Arrow *PROGRAM* down).

*Producer's note: The device can also generate other frequencies,  
 which do not correspond to the intended use.  
 If the frequencies are used, the user takes the responsibility for it.*

The Program contains  
 following frequencies:

Frequency	Time (Minutes)
16 Rife-Frequencies against Coxsackie-Virus	32:00
1 Rife-F. against Cytomegalie-Virus (CMV)	03:00
5 Rife-F. against Tabakmosaik-Virus	10:00
Coxsackie-Virus 360,5 - 366 kHz (Clark)	07:00
Cytomegalie-Virus 408,5 - 410,5 kHz (Clark)	03:00
Tobacco mosaic virus 427 – 429,5 kHz (Clark)	04:00
<b>Total</b>	<b>59:00</b>

You do not need to run this frequency-chip, but you can choose, depending  
 on what virus you want to zap.

Other viruses' frequencies can be found on the frequency chips  
**EBV** (Epstein-Barr virus), **Herpes** (simplex and zoster),  
**Flu** (influenza, adenovirus) and **HIV**.

**Colloidal silver is** - taken orally - effective against viruses,  
 as it is evident from the literature.

**Incense** is also a known anti-virus agent, which is also  
 recommend Dr. Hulda Clark. Available as a fragrance lamp oil.  
 Take never pure, but rather dissolved in water.

Use the in BioWave built-in Frequency-Programs  
**SN** (runny nose), **SZ** (pain). These programs contain frequencies, which can  
 be helpful against viruses.

**Frequency-Chip WARTS (WZ)**  
**(according to Raymond Rife and Dr. Hulda R. Clark)**  
**Version 002**

FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).

The device shows now automatically the content of Chip-Card.

Every Chip-Card works with any BioWave-Generator.

Please be careful: Do not touch the gold side of the Chip.

*Producer's note: The device can also generate other frequencies, which do not correspond to the intended use.*

*If the frequencies are used, the user takes the responsibility for it.*

The Program contains following frequencies:

Frequency	Time (Minutes)
4 Warts-F. from Rife	08:00
Wart 1: 344 - 345,5 kHz (Clark)	04:00
Wart 2, BS, PU, Plantar: 402 – 411 kHz (Clark)	10:00
Wart JB: 419 – 422 kHz (Clark)	04:00
Wart CC: 426 – 432 kHz (Clark)	07:00
Wart HA: 435 – 449 kHz (Clark)	15:00
Wart FR: 460 – 464,5 kHz (Clark)	06:00
<b>Total</b>	<b>54:00</b>

**Supporting Measures for Warts:**

Use also the frequency-chip **RIFE** – it contains additional frequencies against warts.

You can apply the zapper current (of the chip program) directly to the wart (s). Use the bare metal connector and clean it with ethanol. If it uncomfortable tingles or burns, reduce the intensity of the voltage.

Take the homeopathic staphysagria (D12) two times a day.  
5 globules between meals (3-4 weeks).

Dab the wart with thecelandine tincture. Caution: Do not take!

The Program contains  
following frequencies:

Frequency in kHz	Time (Min.)
Streptococcus mitis 314,5 – 320,5	05:00
Corynebact. d., Gardnerella 340 - 344	05:00
Lactobacillus acidophilus 346 – 351,5	07:00
Campylobacter, Nocardia, Escherichia coli 352 - 357	06:00
Streptococcal, clostridia, Campylobacter, Nocardia, Coxsackie virus 360 - 370	11:00
Staphylococcus aureus, alpha-and beta-Streptok. Clostridium acetobutylicum, Troglyodytella abrossari 371 – 390,5	14:00
Bacillus anthracis, E. coli Clostridium perfringens 394 - 398	06:00
Shigella dysenteriae 390,089	03:00
<b>Total</b>	<b>57:00</b>

**Supporting Measures for Tooth-restoration:**

The Program-Chip **TEETH 2** can be a useful supplement;  
it contains Dr Clark's frequencies against tooth decay and plaque as well as  
Rife frequencies against dental foci, periodontitis and gingival suppuration.

Other frequencies of bacteria that are often found in jaw, contain the chip  
**Lung/Bronchi** (ex. against Bacteroides fragilis, Ascaris, Mycobacteria,  
Haemophilus, etc. ..).

Furthermore, I recommend cleaning teeth and jaws with teeth zappicator -  
probe from metals, lanthanides (magnetic heavy metals), dyes, bacteria, etc..

A dentist can also test bio-energetically (eg with EAV), should check whether  
there are focal disturbances of the teeth. These are often not detected by X-  
ray images and can also exist many years after a tooth extraction. Such  
interference fields are true "bacteria-spin".

Use oregano tooth powder for cleaning the teeth. This kills some highly toxic  
bacteria (ex. Clostridium) or weakens it. Take care of your teeth to keep the  
spaces between the gum pockets and clean (with interdental brushes and  
Salviagalen tincture). Replace your toothbrush every 4 weeks.  
Visit your dentist regularly!

Zinc strengthens the kidney energy, which is important for the teeth (taken  
daily at 5.00 clock). I also recommend the taking of 500 mcg of selenium per  
day (after using the chip).

FOR USE WITH BioWave-Generators:

Switch the device on, put the Chip-Card in (Follow the direction arrow!).

The device shows now automatically the content of Chip-Card.

Every Chip-Card works with any BioWave-Generator.

Please be careful: Do not touch the gold side of the Chip.

If you want to use only one part of the program,  
you can just skip the preceding frequencies  
(Arrow PROGRAM down).

*Producer's note: The device can also generate other frequencies,  
which do not correspond to the intended use.  
If the frequencies are used, the user takes the responsibility for it.*

The Program contains  
following frequencies:

Frequency in kHz	Time (Min.)
6 Rife-Frequencies against dental foci	12:00
3 Rife-F. against osteitis (bone inflammation)	06:00
3 Rife-Frequencies against Gingival suppuration	03:00
1 Rife-Frequenz against periodontosis	03:00
Dental plaque 2 (3rd section) 212 – 218 (Clark)	03:30
Dental plaque 1 (3rd section) 233 – 238 (Clark)	03:00
Dental plaque 2 (2nd section) 279 – 284 (Clark)	03:00
Caries N (3rd section) Zahnbelag 1 (2.Bereich) 293 – 298,5 (Clark)	03:30
Dental plaque 2 (5th section) 305,5 – 310,5 (Clark)	03:00
Caries N (2nd section) 327 – 331,5 (Clark)	03:00
<b>Total</b>	<b>43:00</b>
